

This Redemption Statement has been produced for

LOGITECH EUROPE SA

by

ECOHZ AS

confirming the Redemption of

21 001

I-REC Certificates, representing 21 001 MWh of
electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

China

in respect of the reporting period

2020-01-01 to 2020-12-31

The stated Redemption Purpose is

I-REC Suzhou

Evident

QR Code Verification

Verify the status of this Redemption Statement by scanning the QR code on the

Redeemed Certificates

Production Device Details						
Device	Country of Origin	Energy Source	Technology	Supported	Commissioning Date	Carbon (CO ₂ / MWh)
Qiuping Wind Power Project	China	Wind	Onshore	No	2015-02-12	0.000
Redeemed Certificates						
From Certificate ID	To Certificate ID	Number of Certificates	Offset Attributes	Period of Production	Issuer	
0000-0000-6764-8204	0000-0000-6766-9204	21 001	Inc	2020-09-26 - 2020-10-21		

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'inc' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'exc' means carbon offsets relating to these MWh may be traded independently at some point in the future.

For labelling scheme information please refer to the scheme's website. Labelling scheme listing may not be exhaustive.

Thermal plant emit carbon as part of the combustion process. Whilst this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.
